TO ALL COLLEGE MEMBERS:

As your President it affords me great pleasure to extend a very cordial invitation to each of you to attend our 30th Annual Congress to be held in the beautiful new Paris Convention Center, Paris, France, April 1974. I cannot begin to describe the extensive effort and constructive planning that have been put forth to make this Congress a real success.

No fewer than ten of the most distinguished European clinicians and research workers in allergy will participate in the scientific program to be presented. A number of the foremost allergists of America will also collaborate in its presentation. It promises to be the preeminent scientific symposium-conference in allergy ever presented by the College.

In addition, the Congress will feature a new and unique program of social events. There will be a reception on the evening of our arrival; a sightseeing tour of Paris; a visit to the Louvre, world famous art museum; you will see famous cathedrals and other places of historical interest; a fashion show presented by one of the most renowned Parisian couturiers; our traditional luncheon honoring all Past Presidents and a farewell banquet on our last night in Paris. For the women there will be complete access to the salons, boutiques and exquisite shops that have made Paris the recognized style center of the world.

Our 1974 Congress will be a totally exciting experience none of you will want to miss. The scientific sessions will be followed by four post-convention tours, and each will include a medical seminar. The tours are optional so you may, or may not, include one in your itinerary as you choose.

I urge you to get your reservations in early because our accommodations are limited. I am looking forward to the pleasure of greeting each and every one of you in Paris next April.

Cordially,

Wm. Sawyer Eisenstadt, M.D.  
President
